Plumbing Contractor: State Plumbing & Heating Co., L.A.

FRESNO COMMUNITY HOSPITAL

Materials for this new \$4,000,000 st selected for qualities of extreme endu ready adaptability to the strictest sanita VOSS floors were specified without qu solid Florentine Terrazzo units actively growth—are stain resistant and e hygienically clean.

ROSSMOOR

While the VOSS floor is a prime choice use, it is still a pace setter in residenti throughout the western United States. A this is its selection for use in the 8000 new \$200,000,000 Long Beach subur by Ross W. Cortese, where economy flexibility were commensurate with bas and beauty.

In a mere three year period, Pacific Pre-Cast Products, Inc. has become the West's largest manufacturer of shower floors. Why? The answer lies in two basic facts: One—the increasing preference for pre-cast receptors in place of tile has created a need and demand for the product. Two—high production standards at Pacific Pre-Cast Products, Inc. assure a better, quality product. Results: the phenomenal growth of this company.

Extensive research, product development and engineering skill is continuously invested in the production of VOSS floors, giving the product many distinct advantages. Among these are: **FLEXIBILITY**—170 shapes, sizes and colors. **ECONOMY**—simple installation saves up to 35% in labor costs. **SERVICE & SATISFACTION**—absolutely no leaking or staining. **BEAUTY**—luxurious Florentine Terrazzo, accented by five decorator colors.

This brochure was designed to show the flexibility of VOSS floors—adaptable for all types of construction.

TURER OF SHOWER FLOORS

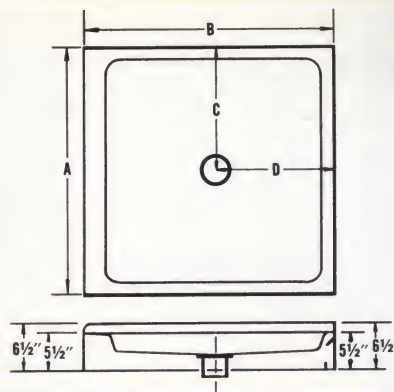

SPECIFICATION INFORMATION... Illustrated below are the four VOSS shower floor styles with specifications. Additional sizes, shapes and colors available.

FULL THRESHOLD—recessed installation using three finished walls.

FULL THRESHOLD—recessed installation where three finished walls are desired. Reduces material and labor costs by eliminating two wall returns.

Model #	Size	A	B	C	D
#101	33 x 33	33	33	16½	16
#104	33 x 36	33	36	16½	17¼
#113	36 x 33½	36	33½	18	16
#116	36 x 37½	36	37½	18	18
#119	36 x 41½	36	41½	18	20
#128	40 x 37½	40	37½	20	18
#131	40 x 41½	40	41½	20	20
#132	42 x 33	42	33	21	16
*#137	48 x 33½	48	33½	24	16
#140	48 x 37½	48	37½	24	18
*#143	54 x 33½	54	33½	27	16

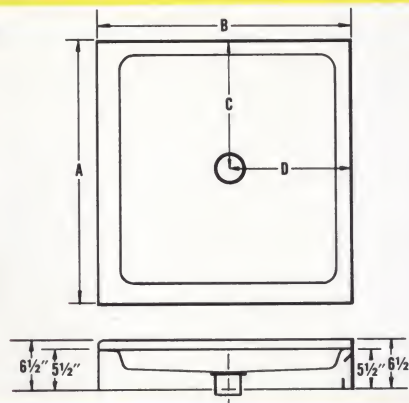

DOUBLE THRESHOLD—corner installation using two finished walls, one glass wall.

DOUBLE THRESHOLD—simplified corner installation by using only two finished walls. Third wall replaced with glass not only increases daylight but also reduces material and labor costs.

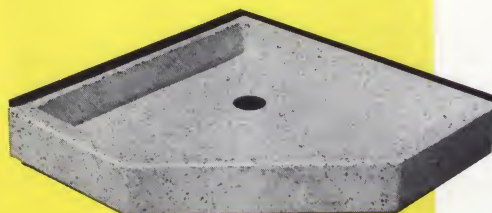

Model #	Size	A	B	C	D
#201	33½ x 33½	33½	33½	16	16
#204	33½ x 37½	33½	37½	16	18
#213	37½ x 33½	37½	33½	18	16
#216	37½ x 37½	37½	37½	18	18
#219	37½ x 41½	37½	41½	18	20
#228	41½ x 37½	41½	37½	20	18
#231	41½ x 41½	41½	41½	20	20
#232	43½ x 33	43½	33	21	16
*#237	49½ x 33½	49½	33½	24	16
#240	49½ x 37½	49½	37½	24	18
*#243	55½ x 33½	55½	33½	27	16

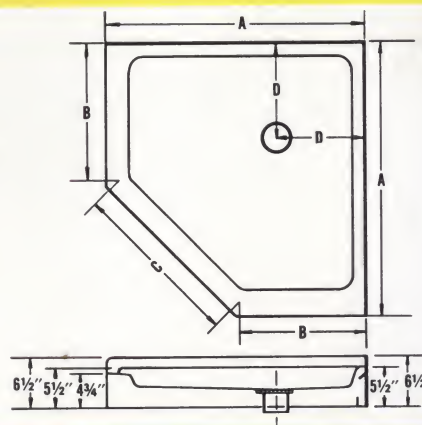

NEO-ANGLE THRESHOLD—corner installation using two glass panels.

NEO-ANGLE THRESHOLD—space saving corner installation with two glass panels that provide maximum daylight. Using only two finished walls material and labor costs are reduced.

Model #	Size	A	B	C	D
#316	37½ x 37½	37½	37½	26¾	12
#331	41½ x 41½	41½	41½	30½	12

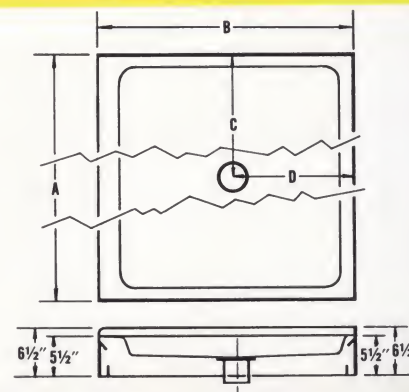

"TUB-SIZE"—replaces recessed or corner 5' tub.

TUB-SIZE
provides extra roominess.
Used in place of recessed or corner 5 foot tub.

Model #	Size	A	B	C	D
*#476	60 x 33	60	33	30	16

*Available in right or left hand drain.

INSTALLATION INFORMATION

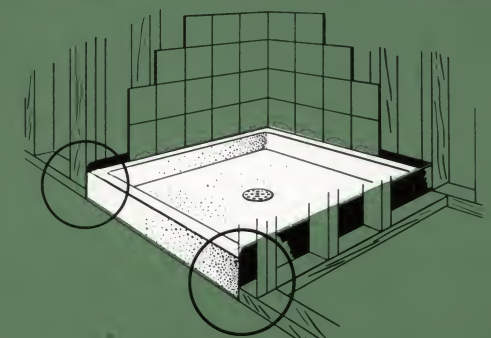

VOSS SHOWER RECEPTORS... a leak proof shower base, drain and threshold... all in one, eliminating the necessity for sub-drain and mopped-in or composition pan.

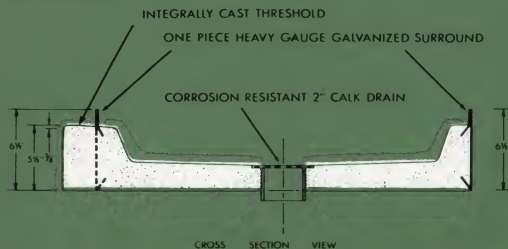

NO SPECIAL CONSTRUCTION or floor reinforcing is needed. Sub-floor is laid as usual, cutting hole for drain connection. Make rough opening $\frac{1}{4}$ " larger than receptor size.

SLIDES INTO PLACE as a single unit. Solid threshold needs no reinforcing. The drain is caulked quickly and easily as with other standard plumbing fixtures. ONLY THE PLUMBER HANDLES COMPLETE INSTALLATION.

NO RETURNS on each side of the threshold provide simplified designs... permits maximum use of glass for shower walls and doors. SAVES MATERIAL AND LABOR COSTS.

NO LEAKAGE assured by the single unit construction of shower floor and drain. No chance of damage during installation. No hidden corrosion in later years.

Note: The example illustrated above typifies the use of the full threshold model—adaptable for new construction, remodeling or bathroom additions.

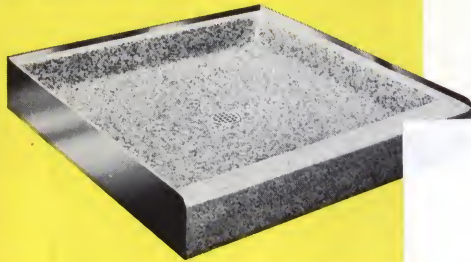

Detailed construction plans available on request for all models and sizes.
